

Phase 8: Project Demonstration

8.1 Demo Deliverable

A complete project demonstration video, uploaded to **Google Drive** with sharing set to "**Anyone with the link can view**".

Demo Video Link: GitHub Repository (public):

8.2 What the Video Must Include

Required item	Covered in script section
Screen sharing of the project	Entire video
Student's voice-over / explanation	Entire video
Project name	Section 1
Purpose of the project	Section 2
Use / benefits of the project	Section 3
Project execution / working process	Sections 4-5
Final output	Section 6

8.3 Suggested Demo Script (about 6 to 8 minutes)

#	Time	Screen	Voice-over (talking points)
1	0:00 to 0:30	Title slide or GitHub README	"Hello, we are . Our project is LegalEase: AI-Powered Legal Document Generator. " Introduce team members.
2	0:30 to 1:15	Slides or README	Purpose: Creating legal documents is costly and confusing for people without a legal background. LegalEase generates customized, editable legal documents using Generative AI.
3	1:15 to 2:00	Slides	Use / benefits: Startup founders, freelancers, landlords and individuals get contracts, NDAs and leases in minutes; editable; exports to TXT, DOCX, PDF with branding; saves cost and time.
4	2:00 to 3:00	VS Code / architecture diagram	Architecture: Streamlit frontend, FastAPI backend, Gemini AI core, formatting modules. Briefly show <code>main.py</code> , <code>routes.py</code> , <code>gemini_generator.py</code> , <code>generator.py</code> , <code>app.py</code> .
5	3:00 to 4:00	Terminal	Execution: Activate venv, run <code>uvicorn legalEaseAPI.main:app --reload</code> , then <code>streamlit run frontend/app.py</code> . Show <code>/docs</code> or the health-check page.

6	4:00 to 6:30	Browser at localhost:8501	Live demo: Enter <i>Freelance Work Contract, Jane Doe (Service Provider), TechNova Inc. (Client)</i> , terms, <i>April 15, 2025</i> . Click Generate, show the success message and preview, click Edit and change a line, then download TXT, DOCX, PDF .
7	6:30 to 7:30	File explorer	Final output: Open each file. Point out logo, headings, terms table, footer, edited text present.
8	7:30 to 8:00	Slide	Conclusion: Summarize outcome, limitations (draft only, not legal advice) and future scope. Thank the viewers.

8.4 Recording Tips

- Use a screen recorder with microphone (OBS Studio, Xbox Game Bar, Zoom or Google Meet recording)
- Record in a quiet place, at 1080p if possible; close unrelated tabs and notifications
- Run through the demo once before recording; keep the Gemini API key hidden (do not show `.env`)
- Keep an example input ready to paste so the demo stays smooth
- Speak clearly and mention the **project name, purpose, benefits, working process and final output**

8.5 Upload Instructions (Google Drive)

1. Upload the video to Google Drive
2. Right-click the file, choose **Share**
3. Under General access, choose **Anyone with the link** and set the role to **Viewer**

4. Copy the link and paste it in this file and in `README.md`
5. Open the link in an incognito window to confirm it plays without login

8.6 Final Submission Checklist

GitHub repository (must be public)

- ☐ `README.md` with project summary, team details, quick start, links
- ☐ Phase 1: Brainstorming & Ideation
- ☐ Phase 2: Requirement Analysis
- ☐ Phase 3: Project Design
- ☐ Phase 4: Project Planning
- ☐ Phase 5: Project Development (source code: `ai_core/`, `legalEaseAPI/`, `frontend/`, `Image/`, `config.py`, `requirements.txt`, `run.sh`)
- ☐ Phase 6: Project Testing (test cases filled, screenshots in `docs/screenshots/`)
- ☐ Phase 7: Project Documentation
- ☐ Phase 8: Project Demonstration
- ☐ `.env` is **not** in the repo; `.gitignore` present
- ☐ Repository opens without login (test in incognito)

Demo video

- ☐ Shows screen and includes voice-over
- ☐ Includes project name, purpose, use/benefits, execution/working process, final output
- ☐ Uploaded to Google Drive with public "Anyone with the link" access
- ☐ Link added to README and submitted

SkillWallet

- ☐ After credentials arrive, inform the faculty of the project name and team members so the team can be formed in SkillWallet
-

8.7 Suggested Final Repository Layout

```
LegalEase/  
├── README.md  
├── docs/
